

Untangled

Network Analysis for Journalism

A Network analysis is a dramatically growing area of research in fields as diverse as epidemiology, linguistics, marketing and neurology. Journalists and news organizations have been slow to apply network analysis to information gathering and storytelling. This initiative aims to unite any and all communities interested in the application of network analysis to journalism. This could include analysts, journalists, programmers... anyone.

Examples

We've compiled examples of network analysis in journalism and tools used to perform this analysis and visualize the results.

News

Untangled is also a forum to help facilitate people to share their on-going research and initiatives.

- Oh, my!

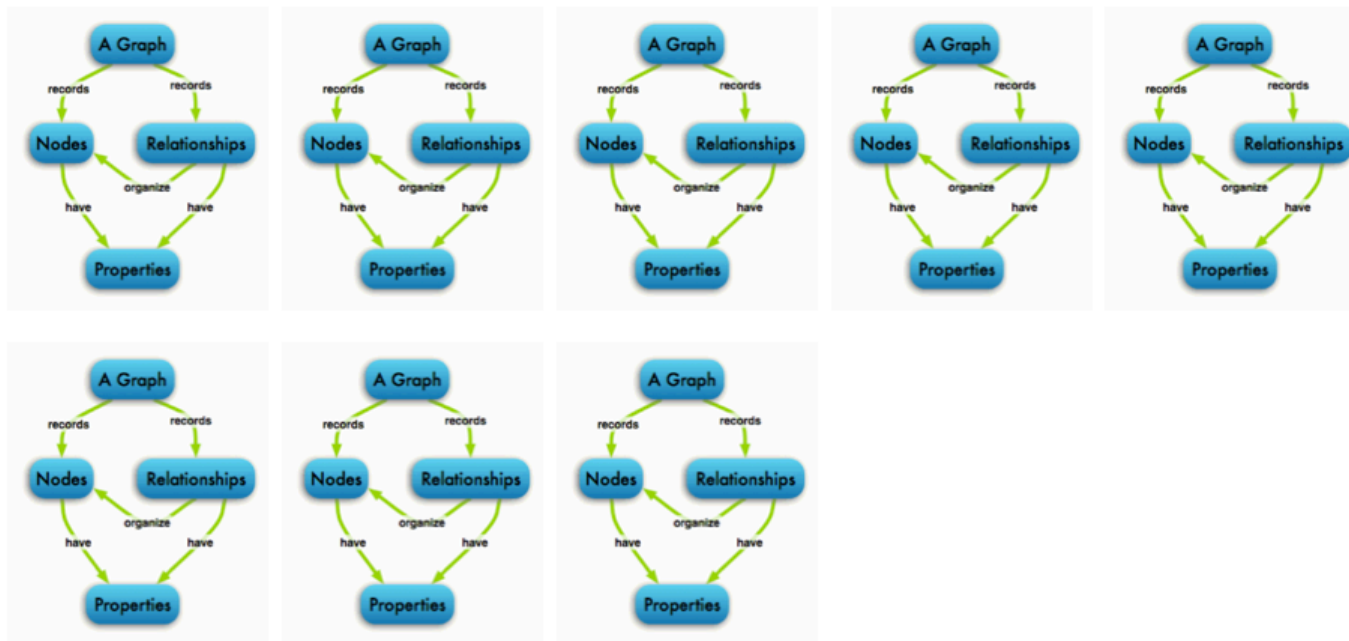

Story Examples

Cum sociis natoque penatibus et magnis dis parturient montes, nascetur ridiculus mus.

Nullam quis risus eget urna mollis ornare vel eu leo. Cum sociis natoque penatibus et magnis dis parturient montes, nascetur ridiculus mus.

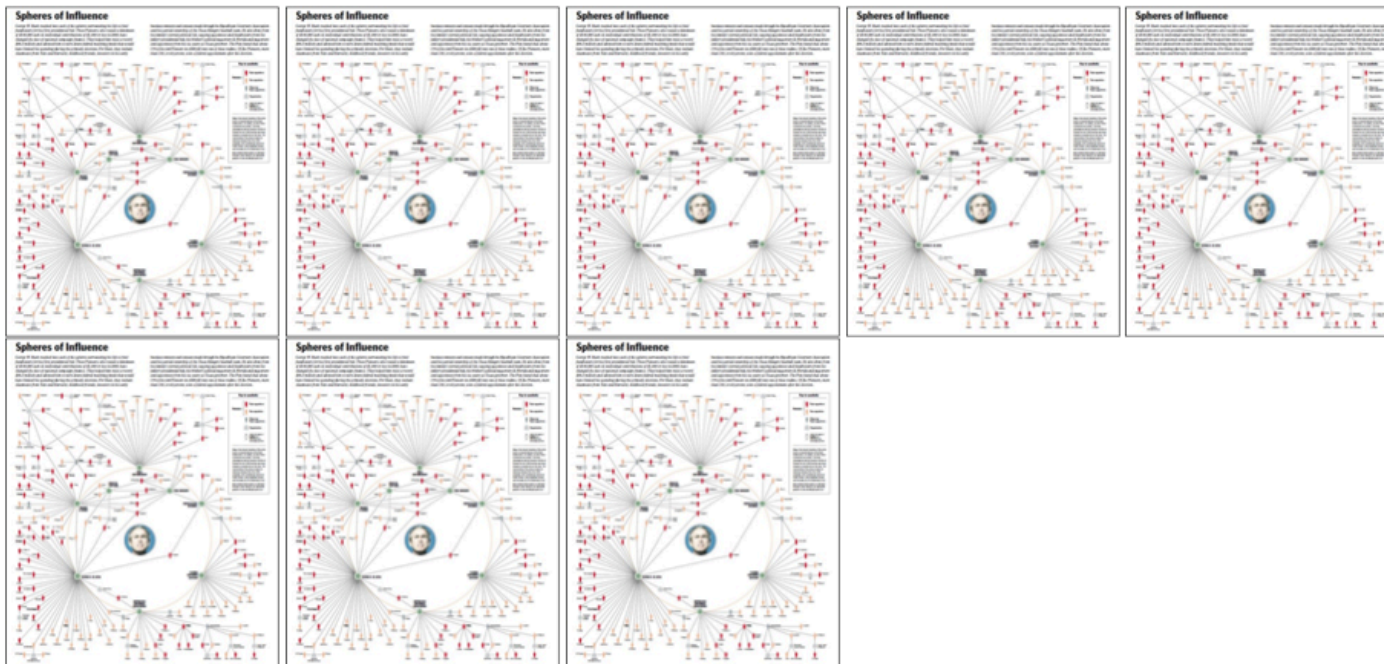

Tool Examples

Collecting data. Storing information. Finding connections. Displaying those findings. We've gathered some notable tools that facilitate the process of network analysis in journalism.

Story Examples

Campaign contributions. Insider trading. Conflicts of interest. Connections among football coaches or corporate boards of directors. All are topics that require journalists to understand and analyze relationships among people, businesses or organizations. We've gathered some notable examples of stories that have used network analysis.
